Subject: Painting, Church of Christ building

Dear Steve,

Enclosed is payment for materials and labor to paint our building on Tuolumne Road in Sonora. Everyone is delighted with the results. Not only is it pretty but it is evident that the best possible paint was used and it was applied in a way that offers maximum protection.

Please give our special thanks to Seldon Wright who was a stickler for a quality job. Through his guidance, all wall surfaces were backrolled after spraying which filled all weather-checks — a really quality job.

Also, please express our thanks to Dennis Dolin who completed the job with the same level of quality and personally donated several hours of his time to finishing things up.

George Tune explained the rates that you have charged us and we know that you have been very generous.

Again, thanks for helping accomplish this task which we look upon with pride. And, we invite you to visit with us (worship services are each Sunday at 10 AM) on any occasion that you can.

For the church in Sonora,

  
Eldon Wright
