Dear Steve:

This letter is to compliment you and your employees on a job well done. Your employees were very professional while they were here and in the way they completed the job of painting my house. They accomplished the work as they would have done on their own house. I was amazed the way "Angel" (your lead person) painted the doors, they look as if they were sprayed as no brush marks show. He and the other workers were very meticulous in their task. It obviously pays to go with a reliable company. I am totally satisfied and happy with the entire job and would definitely recommend your company to anybody looking for a painting company.

Thank you for making my home look new again.

Respectfully,

Don Robertson
