Steve,

I just wanted you to know what a pleasure it has been doing business with you and your company over the last 9 years. I have found that you possess the ability to provide a standard of service that is above and beyond the typical contractor in your field. From single and multi-family home construction to luxury resorts to hotel guestrooms and all areas in between you have proven to make the construction process less burdensome.

I certainly look forward to doing business with Zelinsky for many years to come. If ever I can provide professional reference beyond this letter please do not hesitate to call.

Thanks and good luck in future endeavors
